DIFFERENTIATORS

- **Software with geo-tagging capabilities** - This enables us to monitor officers continuously from the start to the end of their shifts,, and ensures that they are at their designated locations, providing reliable security services.
- **Daily Activity Reports with hourly pictures** - These reports are updated hourly by the officers and are generated through our software, providing clear and timely insights into on-ground activities and incidents.
- **24/7 Hands-on dispatch center** - This helps provide a speedy response time by having the capacity to organize and react to situations swiftly, which ultimately improves security operations.
- **Meticulously planned project timelines** - This ensures that all security setups are operational as per the agreed schedule.
- **Comprehensive maintenance support for our software** - Our support team is readily available to address any technical issues or updates required, ensuring that it runs smoothly and efficiently at all times.
- **SOP and software training for officers** - This includes thorough instruction on utilizing our software, understanding post orders, and adhering to operational protocols.
- **Cost Optimization Strategies** - This helps identify areas where costs can be reduced without compromising quality, such as optimizing shift schedules to ensure efficient use of labor.
